

**Cocoon Innovations Gramercy CGB150 Messenger Sling** \$29.99; cocooninnovations.com

The Gramercy CGB150 Messenger Sling is designed to store not only an iPad but an iPhone as well. The iPhone is stored in a see-through exterior media pocket for easy access, while Cocoon's rubberized 'GRID-IT!' system allows the bag to be repurposed for gadget uses beyond just the iPad alone. The single strap can be slung across the shoulder or chest for carrying the bag on the side, though I would have preferred a double-strap backpack design to allow the sling to be secure when riding on a bike. Still, I like the idea of the GRID-IT Inserts that allow the bag to be used for items besides the iPad such as digital cameras, cables, iPods and portable videogame devices. The bag's elastic strap lattice ensures that it

**Pad YOUR Covers and Carrying Cases**  
by Mike Riley

With the highly anticipated release of the Apple iPad, accessory providers flocked to the new platform to... Dock (99), rechargeable dock (second Apple's own Keyboard Connector Kit (\$29), various vendors are offering their own... cases. While some have been able to reproduce covers and carrying... the unique, slim dimensions of the iPad and account for... accessories available at the time of the iPad's release date or shortly thereafter.

**Booq Box Skin XS Carrying Case** \$29.99, booqbox.com  
While Apple's iPad case is a sophisticated yet minimal black... these designers at Booq realize that a broad range of consumers will use the... device comes in various black and sand, as well as turquoise, ivory, and... means that doing the job of keeping an iPad protected against minor... and daily tucks.
